- Practicing professionals with real stories
- Interactive online modules

Year 13 Academy

- 5 Sessions over 2 months
- Virtual Programme
- Focus on next steps
- Interview and application skills
- Interactive workshops with professionals
- Access to NextGen Health and Care.

What will the sessions cover?

The Year 12 Academy will cover professions you want to know more about and some you've never heard of. These sessions are designed to give you a full picture of all the careers in health and social care with real professionals sharing their knowledge, insight and experience with you. You will also experience two half days in a hospital environment learning hands on skills.

The Year 13 Academy will cover some more key areas, plus an added focus on preparing to progress into higher education, employment or apprenticeships. This academy will give you the tools to succeed in your chosen path as well as sessions exploring essential soft skills.

What do I have to do?

After being offered this exciting opportunity and being accepted onto the Academy, our expectations from our students will be to fully participate and engage in each virtual session which will involve having cameras and mics turned on where able and to attend at least 70%. The virtual sessions are between 2 and 2.5 hours long and start at 3pm. There also will be some online workbooks to complete for the Year 12 Academy.

Upon completion you'll be invited to attend a graduation event and be awarded a certificate and potentially additional prizes!

How do I sign up?

If your school is promoting the Academy, great! They'll provide you with an application form. If not, you can ask your school to contact us using the emails below. Alternatively you can get in touch yourself, with the contact information of your course leader or head of sixth form and we'll see if we can offer the Health and Care Academy for your school or college.
